The SUPPORT study:

The SUPPORT study and the many articles about it inform current thinking about advance care planning so profoundly, that we thought it helpful to cite the first SUPPORT paper, as well as two supplements devoted to further exploration of its results. There are many more additional publications about SUPPORT, but these three references are a solid beginning for interested scholars and clinicians.

The SUPPORT Principal Investigators. A controlled trial to improve care for seriously ill hospitalized patients. The Study to Understand Outcomes and Risks of Treatments (SUPPORT). *Journal of the American Medical Association*. 1995;274:1591-1598.

Dying Well in the Hospital: The Lessons of SUPPORT. *Hastings Center Report. Special Supplement.* 1995;25(6):S1-S36.

Findings from SUPPORT and HELP. *Supplement to Journal of the American Geriatrics Society.* 2000;48(5):S1-S233.
