

**Permission Form for
ScienceQuest Coaches**

Dear ScienceQuest Coach,

Education Development Center, Inc. ("EDC") supports the *ScienceQuest* project, which is funded by the National Science Foundation. The purpose of the *ScienceQuest* project is to bring science and technology projects to community centers for young adolescents who will work with volunteer coaches to explore a topic of their interest and then document their findings in a website.

We invite you to participate in the project from _____ through _____. This release covers activities held at any time when the *ScienceQuest* team is working on *ScienceQuest*, such as at the computer learning center ("CLC"), in the neighborhood of the CLC, on fieldtrips related to *ScienceQuest*, or during training or meetings for *ScienceQuest*.

EDC would like your permission to interview you, take photographs of you, and to video/audio tape you as part of your participation in EDC's *ScienceQuest* project. EDC would also like your permission to use your name with any photograph, videotape, or statement made by you verbally or on the *ScienceQuest* listserv, or via email.

EDC plans to use video/audio tapes of you, photographs of you, and statements by you, and other participants primarily for purposes of reviewing these activities. In addition, the information, photographs, and video/audio tapes EDC gathers during these activities may be presented at conferences or appear in published reports, or be distributed through the World Wide Web or other broadcast media.

If you have any questions about the *ScienceQuest* project or this permission form, please feel free to contact Jennifer Dorsen, Project Director at (617) 618-2686.

I have read the whole Release Form. By signing this Release Form, I grant EDC my permission to use photographs of me, statements (either verbal or written) made by me, video/audio tapes of me, and/or my name in the *ScienceQuest* project as described above.

My Signature _____ Date _____

My Name _____
(Please Print)

Address _____

Name of CLC where you participate in ScienceQuest _____
